Healthy lifestyle and why it matters

Nowadays, your well-being depends on your lifestyle. In order to stay physically and mentally healthy, it is necessary to have the right eating habits, sleep well, and do sports. These aspects keep you healthy and balanced.

I was given two pictures, and both of them represent a concept of a healthy lifestyle. The first picture is a photo of a group doing Yoga on a field, while the second one is a drawing that shows several objects referring to the healthy lifestyle. What the pictures have in common is that they both outline the importance of sport in our lives.

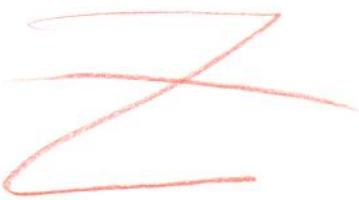

The difference mainly consists of the style (a photo versus a drawing) and the content.

So, what picture reflects reasons for a healthy lifestyle in a better way? As for me, the first picture does. Not only does it show some healthy lifestyle attributes (alike the second one), but it also shows how happy and balanced healthy people are.
