Every human likes to live in his own way. But unfortunately there are some points, that can only make your life worse. The way you live has a great influence on your health, knowledge, future and achievements.

Speaking about these two pictures, their main theme's the same — the healthy way of life. On the first picture ~~were are~~ some children ~~do~~ sports outdoors. The second one also has sports items on it, such as a basketball ball.

As for points that're different ~~on this pictures~~, I can say that there are children on the first picture, and the other one has only a bunch of subjects on it. More than that, there are some objects connected with healthy food, that are shown only ~~on~~ the second picture.

To my mind, the first picture proves better that the healthy way of life is important and useful. Just by looking at the children on it we can say that they're healthy, skinny and happy. Their bodies are shown as a result of their active and healthy life.

Every human likes to live in his own way.
You can create your own little world with your own rules. But there are some points, that can only make your life worse. For example if you eat too much ~~junk food~~^{no} and don't do any sports, it will be bad for your health. ~~That's why,~~ ~~the way you live has a great influence on your health, knowledge, future and your~~ ~~and achievements. The atmosphere~~ ~~Unfortunately, not all the people understand that~~ ~~He in general~~

Speaking about these two pictures, their main theme is the same - the healthy way of life. ~~As I see it, people who live a healthy~~ ~~follow~~ On the first picture some children ~~do~~¹⁰⁰ sports outdoors. ~~Speaking about the second picture, it also has sports items on it such as a basketball ball and a cycle.~~ ~~The second one~~ ~~has~~¹¹⁰ sports items on it such as ~~a basketball ball and~~¹²⁰ a cycle.

As for ~~subjects~~ points that are ~~different~~ different on this pictures, I can say that there are children on the first picture and the second one has only a bunch of subjects. More than that, ~~there is an important~~ ~~part of the healthy way of life apart from sports.~~ It's ~~healthy food.~~ There are some objects connected with ~~healthy food~~^{that} are ~~only~~³⁰ on the second picture.

All in all, I can say that ~~To my mind,~~ ~~the first picture~~^{better} proves that the healthy way of life is important and helpful. Just by

looking at the ~~kids~~ children on the picture we can say that they are healthy, skinny and happy. Their bodies are shown as a result of their healthy and active life. We can't understand the same from the second picture. All in all, I'd like to say that I find people with the healthy way of life the strongest, and not only physically. It is very important to stay healthy.
