Part 1B

As for me, it is important to develop creativity and imagination in children, as these qualities help them. Kids learn not to give up, to find solutions to problems and to hope that everything will be alright. Various characters have these qualities. For example, Nezha is not clever, but he manages to live well due to his creativity. Also, Cinderella is imaginative and she hopes that she will become a princess and this helps her not to surrender. This is why it is important to develop these characteristics.

Part 2

Johnny was a white dog with a black spot on his back. He was a typical dirty stray dog like many others in the world. So, a couple decided to take him home. He was extremely curious, and so this is why, he set off as soon as he got to his new home. This was his first time in such place. He started from the moment, as there were a lot of stuff he had not seen before. While he was exploring, he found a strange box. While he was sniffing its cover, a huge amount of frogs jumped out of the box. He was unpleasantly surprised and in a moment he was running away from them in another direction.

Alise is a retired woman. She spends her time in cleaning the house, looking after her husband, sometimes her grandchildren and her new pet. She is surprised, because she is not prepared for a sudden conquest of the house by the frogs. She shouts in horror, "What are these frogs? I can't believe it. Mark, are these your frogs?" But Mark doesn't hear. He is getting ready for the next day.

Урачулок Компануа 2

Mark is a retired office worker and his hobby is fishing. The next day he ~~will~~^{is} coming fishing with his friends. But in a few seconds he will ~~have~~ been hit by his wife, as she will think that Mark accidentally ~~of~~^{has} opened the box. He will sit and think why his wife has done that. And Johnny will ~~ask~~^{ask} ~~and~~ to come and will ask: "What has happened here?"
Unfortunately, Mark will not go fishing and he and Johnny will have to catch all the frogs in the house.

 Then he will seat scratching his head, as the wife will have not explained him anything, and so will end. Johny will be amazed. "What has happened here?" he will ask. And the whole family will have to catch all the frogs that they escaped and Mark will probably go fishing ~~as he~~ as it will be catching a few more days.

- Nezhaoka
- Cinderella

It is very important to develop both creativity and imagination in children. Both will be important for their future life. For example, Nezhaoka that every thing will be bright. For example, Nezhaoka to his creativity he managed to solve the problem. Cinderella not to solve the problem, she dreamed of her dream. This is why we should encourage children as it will be important to every child. Nezhaoka and Cinderella not to solve the problem, she dreamed of her dream. This is why we should encourage children as it will be important to every child.
