Book 1 Chapter 5

A.

1. FALSE Edward I was the king's heir so he inherited his right to rule, while Alexander Nevsky was elected.
2. FALSE While Edward I led unsuccessful wars with Scotland, Alexander defeated both Swedish and German invasions as well as won many other victories.
3. TRUE Edward I had Queen Eleanor as his wife whereas Alexander was married to the Polotsk Prince's daughter.
4. TRUE Having a severe condition of uncontrollable anger, intolerance and cruelty, Edward I had to work at his character to become a decent ruler.
5. Not Stated
6. ~~TRUE~~ FALSE Edward I was capable of negotiating patiently, and Alexander being a good collaborator managed to diminish the people's suffering negotiating with the Khan.
7. TRUE Alexander changed the rule in Novgorod by moving from personal sovereignty to institutional one.
8. TRUE Edward I staged a legal reform and earned the nickname the "English Justinian", and Alexander contributed to the promulgation of laws.

15

B.

"My dearest son, you have royal blood running through your veins. At a drop of a hat you'll inherit all those untold riches of my country. Have your eye on this crown, it will be yours," proclaimed the king. "But father, I'm in love with a poor girl, and only anticipation of my magnificent life with her saves me and makes me blissfully contented."

The king felt the sting of betrayal hearing those words. The Prince's destiny was to marry a noble lady as the king thought, and the

29

future of the whole country was at stake. "You'll never marry her," the king threatened and was wrong as the Prince abducted his future throne and chose love over riches.

Presenter: our today's topic is science, and we have a prolific writer and an amazing person, ~~XXXX~~ Jane Austen, with us in this studio. It is common knowledge that this astounding lady is a resident of the ~~XXXX~~ United Kingdom in the 19th century and is the member of Romantic literary movement. We hope that our interview will be magnificently informative and enlightening to our audience.

In the wake of the current affairs, the world we live in is nothing like the world of your ~~XXXX~~ time due to the cutting-edge technology and a high rate of modernisation. Let us discuss some major differences and similarities in our day-to-day lives.

Jane Austen: Good evening, Jimmy, I'm glad to be here with you.

Presenter: Jane, the first question is, does your life depend on ~~XXXX~~ technological advances?

Jane Austen: it's an interesting question. My answer would be no. Our lifestyle is pretty simple: we have our morning toiletries, then have a breakfast while reading newspapers with some updates on the current trends. We invite guests to chat with and visit a ball to impress influential men just to tie the knot some day. In ~~my~~ one of my most celebrated books "Pride and Prejudice" you'll find a wonderful description of balls, matrimony and ~~XXXX~~ no trace of technology.

Presenter: You will be astonished if I tell you that devices and smart appliances have become an integral part of our lives in 21st century as such trivial things like communication, cooking, entertainment are unimaginable without up-to-date technology. ~~XXXX~~ However, nowadays we also check news during breakfast but on our phones and have ~~XXXX~~ ^{balls in the shape of parties} ~~XXXX~~ With the fellows.

Jane Austen: I feel like you are describing ~~XXXX~~ extraterrestrial powers phones and devices!

Presenter: ^{speaking about} ~~XXXX~~ ^{taking about communication,} ~~XXXX~~ can you elaborate on how you stay in touch with those who are miles away from you?

Jane Austen: Oh, it is a long excruciating process of ~~the~~ writing a letter, paying a prohibitive price and waiting for ~~it~~ at least 3 months to get it delivered and then waiting for an answer. This system brings agony to everyone as the letter ~~may~~ never reach its destination.

Presenter: such a horrible ordeal! You definitely lack our mobile phones, Zoom and ^{the} Internet as we can reach for someone in a second by calling or facetimeing them.

Jane Austen: what a miraculous ability!

Presenter: Last but not least, tell us about travelling.

Jane Austen: well, you've probably read about Elizabeth Bennet's journey to her relatives. ~~The~~ The best way to embark on a journey is by carriage. You can travel up to several years to reach the destination.

Presenter: I bet ~~it~~ it would take us several decades to travel to other continents. We now have planes and trains, ~~which~~ and it takes one day instead. Despite this, we ~~often~~ ^{also} choose cars ~~as~~ ~~the~~ as a means of transport as travelling by car is both enriching and entertaining.

Well, I deem we've discussed everything and it's time to draw the conclusion.

Jane Austen: I'm well-aware ~~now~~ that the pace of technological and scientific development is terrifying ~~but~~ ^{but} ~~what's~~ ^{revolve what's} done is done for the best. If ~~the~~ the society of my time will ~~revolve~~ ~~into~~ into this, I'm satisfied and a little bit perplexed as this world is just so different.

Presenter: You believe that what we've achieved is the greatest accomplishment but I'm sure that in a few years we'll be able to travel the universe and control the laws of Physics. Thank you for coming!

Jane Austen: thank you for having me!
