1. An average teenager would stay in school longer and would be more listened to.
2. I <sup>was</sup> exploited because marketing people realised that teens could set new trends and have a great influence on people. 2
3. Not similar, since Text 1 is ~~about~~ about how teens and their skills were used by someone <sup>else</sup> and Text 2 is about how teens <sup>achieved</sup> <sup>individual</sup> <sup>success</sup> ~~by themselves~~. — 2 —
4. "Teens can be influencers" ~~Teenagers could also be influencers.~~ — 4 —  
I ~~agree~~ agree with this statement because teens are very active and openminded and moreover modern society proves it very well, <sup>by</sup> <sup>having</sup> young star-influencers. — 2 —
5. Yes, I find it inspirational since I'm a teenager myself and ~~to become as successful~~ as Bill Gates has always been my dream. and it has always been my dream to become <sup>the</sup> as successful as Bill Gates. And a story about his ~~the~~ journey as a young man is even more inspirational. 2 (10)

Well, of course the first place that comes to mind when it's spoken about London is the Buckingham Palace.

However, that's far not the only place you can visit there. — don't forget ~~to~~ about the Tower of London! Moreover,

if you are a fan of ~~the~~ historical places you can visit the Abbey of

Henry VIII or any other ~~abby~~ abbey. Not

only that, but you can also have a ride on the London Eye, where <sup>or</sup> breathtaking view opens when you reach the <sup>the</sup> top. Of course only if you are not afraid of heights.

Walking around London without any specific destination is also quite fun. And if you are not up to going inside any museums you can come to the parliament and enjoy great architecture.

If you rent a bike you can also visit the West End, I know a great spot there where you can have

Учтиво  
 a cup of delicious afternoon tea. Another place worth visiting is the museum of Sherlock Holmes which as well as his apartment <sup>in the book</sup> is located on Baker Street. And <sup>also</sup> no tourist in London can leave without seeing ~~the~~ the tube. (9)

Dear Sir or Madam,  
 I have read an article in the online news media on banning the use of plastic. ~~After reading~~ Having it read, I felt much ~~per~~ perplexed by various feelings - not only was I ~~devastated~~ scared by the number of plastic waste, which is only increasing, but I also felt anger that in contemporary society not much is being done to deal with the ~~threats~~ threats caused by <sup>the</sup> pollution. I'd like to

Firstly, ~~I'd like to~~ talk about the fauna. Many species are damaged by the amount of plastic garbage ~~thrown~~ thrown in the oceans, and forests, and that is awful. A great amount of those animals are endangered and this much garbage around their habitats can cause their extinction. I consider it to be pure ~~violence~~ violence since animals can be ~~tormented~~ tortured by plastic. As an example we have lots of seals, polar bears and moose that need help because they are <sup>often getting</sup> trapped in a plastic package from some kind of ~~food~~ food.

there is a ~~problem~~ <sup>проблема</sup> ~~of~~ <sup>связанная</sup> ~~with~~ <sup>с</sup> ~~the~~ <sup>этой</sup> air pollution, ~~the~~ <sup>этой</sup> ~~pollution~~ <sup>загрязнения</sup> overall, not only the air but environmental. Massive amounts of plastic are burned every year, which leads to the damage of the ozone layer and that is extremely unhealthy for the planet. ~~Pollute~~ Polluted water is dangerous or sometimes even lethal to drink because it contains bacteria that make people sick. Almost every river ~~is~~ in the third-world countries is filled with plastic. That's why people there have to survive on a very low amount of water. And lots of them die because of each of it.

All the ~~problems~~ <sup>проблемы</sup> ~~mentioned~~ <sup>упомянутые</sup> ~~above~~ <sup>выше</sup> must be solved as soon as possible. There are ~~two~~ <sup>две</sup> main categories investing in which ~~these~~ <sup>эти</sup> problems could be ~~better~~ <sup>лучше</sup> ~~solved~~ <sup>решены</sup> quicker. ~~The~~ <sup>Первая</sup> first one ~~is~~ <sup>является</sup> the ~~mass~~ <sup>массовая</sup> production of recyclable packaging and the second one is companies that work with polluted areas in order to clean them.

Summing up, I consider this problem to be the most important <sup>one</sup> in our modern society. And I think that more people should talk about it.

Yours faithfully
