1. The short period of adolescence provides numerous advantages. Speaking from a biological point of view, this is a period when people experience the highest level of their physical development. For example, their memory is better, speed is higher and reaction time is shorter. ~~shorter~~ shorter, which is why everything that teens experience can be enjoyed to a full extent. Moreover, the period between childhood and adulthood gives a wonderful opportunity for people to develop imagination by producing the most radical, modern ideas. 2
2. In the past teenagers had to start working earlier than they do now due to financial matters. That way adolescents could contribute to their families' well-being and support their income during the most ~~trough~~ desperate times. 2
3. I think the two texts focus on slightly different aspects of adolescence. In Text 1 the author describes the impact of this life ~~period~~ period on people's intellectual development as well as their attitude to life.

## Yumabek

The second text, however, presents a comparison of the adolescence in the past and in the present.

This ~~com~~ comparison is based on financial material aspects of this stage of life. 2

4. In the first text the auther states quite clearly that modern teenagers experience more stress than ~~pos~~ positive emotions, and I absolutely agree with this idea. The peer pressure that is often ~~exper~~ felt during this period is detrimental to teenagers' mental health. The wide-spread phenomenon of bullying is can also ruin all the positive emotions and things that a person has <sup>experiences</sup> ~~experienced~~. Moreover, the life of a teenager is full of crossroads, and the ~~#~~ <sup>constant</sup> ~~constant~~ reminder of the fact that a choice made today will have the greatest influence on your future is stressful and frightening. That is why all these thoughts put a dark shadow on the period of adolescence. 2

5. It is often said that we live ~~is~~ in the age of opportunities because there are numerous options ~~of~~ for employment and education. For instance, a teenager can start working at ~~to~~ the age of 14. However, the pressure of combining studying and working may have a negative impact on the person's intellectual and ~~ph~~ physical state and can ~~lower~~ lower the results of their actions. Nevertheless, if someone has a strong desire to become independent and get a formal education ~~simultaneously~~ at the same time, it is possible for them to fulfill this desire providing they give full dedica- tion to this goal. 2

1. Recommended museums and galleries.

The most famous museum in London is the British Museum, where you can observe the natural history of the UK as well as ~~its~~ get an impression the idea of the overall cultural development of the country, from classical paintings and sculpture to modern abstract art. During the summer months when the Monarch is away for the holidays in their residence in ~~Schot~~ Scotland, you can have an insight of the interiors of the Buckingham Palace, several areas of which act as a museum. ~~and are~~

2. What landmarks to visit

The most popular place of interest that is always mentioned in tourist brochures is the ~~Abbey~~<sup>Abbey</sup> (Westminster Abbey), which is not only a place of coronation of British monarchs ~~inher~~ such as Elizabeth II, but also a spot where the brightest minds of English literature <sup>and</sup> science have found their peace.

3. Places of cultural entertainment.

West End is a world-famous place in London where ~~countless theatres that present plays of~~ have united into one cultural centre that can satisfy

Hucmobeek

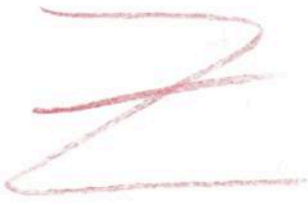

satisfy all intellectual desires of its visitors. Hyde Park can also be called a cultural site, for its 'Poet's Corner' gives an opportunity to enjoy the performances of ordinary people as well as to show off your own talents in poetry or music.

#### 4. Means of transportation

The most convenient way of getting around London is using the Tube has connected all significant places in one quick underground route. The Tower Bridge gives allows citizens and visitors of the capital to cross the Thames and enjoy a panoramic view on the historical landmarks and modern architectural masterpieces.

#### 5. The one feed to definitely try in London.

No matter what place you pick to have a meal, whether it is an ordinary pub or the 'Savoy', one ~~this~~ dish that would ~~appear~~ appear on any menu is clotted cream, which is a dairy product created by whipping heavy cream until to the condition when dairy particles break away from the buttermilk but don't form a uniform piece of regular butter. ~~that~~ It is usually served as a spread with some crunchy ~~pea~~ toasted bread during afternoon tea.

Dear Sir/Madam,

I am writing to you to present several of my ideas that have been <sup>influenced</sup> ~~caused~~ by a news article concerning air travel that I ~~have~~ <sup>had</sup> read in the latest issue of your magazine. In the article in question you have ~~pointed~~ vividly pointed out the detrimental ways that planes affect the already poor state of the environment. After giving the matter much thought I thoroughly analysed the topic, and it is my belief that the methods that have been proposed in your article are not strong enough to noticeably reduce the carbon emission caused by this means of transportation.

First of all, under <sup>present</sup> ~~modern~~ circumstances, flying via plane ~~cannot~~ <sup>cannot</sup> be replaced by another vehicle for it offers high speed and comfort, and ~~these~~ according to recent opinion polls, these are the factors that people value more than 'staying green'. Secondly, reducing the number of flights we take or choosing ~~other~~ <sup>an alternative</sup> means of transportation are highly unlikely to decrease the ~~amount~~ amount of flights due to the fact that they are mostly offered by commercial organizations that use the system of dynamic pricing, which means that any ~~sum~~ <sup>sum</sup> of a flight number of passengers would ~~still~~ <sup>still</sup> cover their costs, and even a half-empty plane would take off.

Чистовик

Moreover, planes are ~~to~~ widely used for needs of state that are generally ~~urgent~~ and therefore are <sup>the</sup> ~~a~~ country's priority to attend to.

~~To give a clear example supporting my idea, let me present some facts~~

Allow me to present some facts to give a clear example supporting my idea. At the current rate, every airport on the globe hosts dozens of flights a day, and global occurrences such as the COVID-19 pandemic did not have a significant impact on the amount of flights due to the fact that this method of travelling was ~~chosen~~ officially chosen to carry basic everyday goods, medicine as well as ~~people~~ citizens that were prevented ~~from~~ from leaving crossing the border of the foreign countries they were visiting when the pandemic ~~brok~~ broke out.

With all this in mind, it is my opinion that separate citizens cannot influence the global problem ~~disc~~ discussed above on their own. ~~No~~ matter ~~the~~ only providing the governments ~~to~~ take action can the movement in protection of the ~~enviro~~ environment be successful. By involving the state in eliminating our country's carbon footprint the overall ~~temperature~~ world temperature ~~or~~ would be decrease by  $1^{\circ}\text{C}$ , and ~~this~~ which may lower the ~~or~~ scale of climate change, and these

<sup>Чуменбук</sup>  
 actions one of these actions is for the state  
 to take an active position is reducing the  
 usage of air crafts, both military and  
 civilian. My idea, which is ~~based~~ based on the  
 opinion of respectable scientists, is that the  
 governments should also use their influence  
 on ~~the masses~~ their people ~~to sp~~ in order  
 to spread the social message that everybody's  
 active involvement in environmental issues  
 of today would determine ~~their~~ the life  
 conditions of tomorrow.

I hope that my description of the problem  
 would influence your future ~~desi~~ actions as an  
 editor and as a citizen, and that ~~the~~ my conclu-  
 sions would be beneficial ~~to~~ to us and our  
 planet. All in all, I once again highlight the  
 desperate need ~~to write before take~~ for the  
 representatives of all social classes and occupations  
 to use the power they ~~hold~~ <sup>have</sup> ~~possess~~ in order to  
~~force change~~ enable real change.

Looking forward to hearing from you shortly.

Yours faithfully,

Sophie Turner
