- 1) Usually, teenagers are expected to thrive during this life period due to the fact that ^{both} their mental and physical state are at their peak.
- 2) Because they didn't have the privilege of being financially ^{secured} supported by their parents ~~back then~~ and had to work just as hard as them to bring food on ^{their} table and have a roof over their heads. ^{shows}
- 3) No, they don't; Text 1 ~~tells~~ ^{shows} us about the biological perspective on being a teen while text 2 focuses on the social and historical context of adolescence.
- 4) "Despite this resilience, however, for some teens these years are more stressful than rewarding - in part because of the conditions and restrictions that often accompany this period of life."

Менювик

I agree, because some teenagers are less fortunate than others: many have to have a part-time job (being severely underpaid) while being a full-time student, many have to deal with abuse and toxic environment at home but aren't financially independent enough to separate, many experience enormous stress because of while choosing and entering a university and deciding on their career paths; all in all, teenagers are ^{considered to be} old enough to be expected to act like adults but not ^{considered to be} old enough to be treated like ones.

b) Yes, it is. It's ^{not} ~~never~~ mentioned in the text that getting a proper education is supposed to help one become independent. On the contrary, being entitled to basic education is ^{being} linked to ~~more dependent~~ more dependent on your parents than ever before. fox

1) What museums and galleries to visit and what to see there?

I think our best bet is British Museum where we can find various artifacts from every corner of the world and even a the famous portrait of Elizabeth II!

2) What historical landmarks to visit and what historical time period to learn about?

I suggest we visit Tower Bridges, Buckingham Palace and Parliament where we can learn fascinating facts both about the royal family and prime ministers of the 20th century. I also think it would be a good idea to visit Hyde Park, where the famous located in West End

Учеников

Speaker's Corner is situated. We should also visit Towley Bridge which though relatively modern, reminds us of how glorious ~~are~~ the bridges ^{constructed} ~~by~~ ^{designed} by ^{six} Brunel ^{all} ^{invasion}.
~~we~~ I insist on visiting Westminster Abbey where we can learn about ^{Norman}

3) What ~~events~~ concert halls / theatres to attend and what to see/do there?

We shouldn't ~~miss~~ ^{forget about} Albert Hall (named after Queen Victoria's deceased husband) and the Globe where we can see iconic Shakespearean plays.

4) What transport to use to conveniently reach the above mentioned places or to enjoy a city tour?

We can always rely on ~~good~~ ^{the} Tube (also known as ~~met~~ ^{the} underground) to move around the city quickly. But in case you are in the mood to drink in the cityscape be sure to opt for the famous London buses.

5) It ~~where~~ ^{which dishes to try?} to eat and what to try?

It goes without saying that England ~~prides~~ takes pride in its cuisine. You can always ~~try~~ ^{order} something basic like clotted cream ~~or~~ you can ~~try~~ ^{some} ~~thing~~ a more authentic dish like black pudding which is a pudding with blood as its ~~main~~ ^{secret} ingredient.

Dear sir/madame I am writing to express my opinion on one of the problems mentioned ⁱⁿ the recent article. The ~~problem~~ ^{point} I would like to elaborate on is humans' impact on climate change. I ~~am~~ ^{am} convinced that we as a society are ~~the ones~~ to blame for global warming and we need to act ^{right now} to prevent it or else we will have to suffer ~~from~~ the consequences. ⁶⁵

First and foremost, I believe that the main ~~the~~ cause of climate change is technological progress. To be exact precise, climate change occurred in unison with industrialization, and accelerated with time ^{and} continues to do so. To illustrate my point of view I would like to draw your attention to the aforementioned planes. They emit CO₂ which is one of the gases that create the greenhouse effect that enhances the ~~rate~~ ^{rate} speed of climate change. ¹⁵¹

In addition, climate change poses a threat to people as it has far-reaching consequences that are terrifying to think of. The rise of sea level and floods in coastline regions in particular can serve as a great example. ¹⁶⁰

Мисловик

Unfortunately, there ~~is~~ is a plethora of other problems Global warming can and will lead to, which is exactly why we need to take the situation under control as soon as possible. I suppose the following can help us prevent climate change and mitigate its consequences. To begin with, international cooperation is of utmost importance. The problem of global warming will affect each of us, so ~~each~~ ^{every} country is expected to collaborate. Furthermore, taxes and extra charges are to be imposed on ~~goods~~ ^{enterprises} and activities causing climate change ~~and~~ while grants and incentives are to be given to those that don't. For example an airline company would have to pay higher taxes whereas a local community farm wouldn't. Last but not least, each individual's contribution is expected and appreciated. Therefore we need to popularize ~~the~~ ~~idea~~ of fighting climate change and warn people ~~against~~ ^{about} its possible aftermath.

To conclude, I believe you ~~share~~ ^{you} share my point of view. I hope ~~the~~ ^{you} the article will ~~to~~ ^{and preventing} make a contribution to reducing climate change ~~and~~ ^{the impending ecological crisis} ~~pre~~.
