Dear Sir or Madam,

I have recently read the article in which you expressed your opinion concerning airplane flights. As you asked readers to comment on the article, I am sincerely willing to discuss this issue with you. In fact, I do not agree with your position ~~at all~~. From my point of view, airplane are of utmost importance in the modern world and cutting down the number of airplane flights ~~would~~ will cause a lot of troubles.

Firstly, airplanes flights play a pivotal role in the global economy. Airplanes deliver various goods, natural resources as well as other materials. Airplane flights help us ~~to~~ develop international ~~to~~ communication ~~to~~, ~~as~~ ~~as~~ ~~well~~ ~~as~~ ~~global~~ ~~eco~~ enables countries to stay connected to one another, ~~so~~ that is why the reduction of airplane flights is highly likely to lead society to dire consequences, and even cause a global crisis.

Furthermore, if the number of airplane flights is reduced, the sphere of tourism might be negatively influenced. People will have less opportunities to travel ~~to~~ ~~foreign~~ abroad, which might cause the decrease in their cultural development. ~~Moreover, the economy~~ ~~is~~ ~~might~~ ~~be~~ ~~As~~ ~~far~~ ~~as~~ ~~concerned~~, ~~some~~ ~~countries~~ ~~are~~ ~~considered~~ ~~to~~ ~~exist~~ ~~only~~ offering there are some countries that depend on tourists ~~economic~~ financially. If world tourism is not widespread, such countries might even stop existing. For instance, in 2020 ~~we~~ ~~all~~ ~~had~~ ~~to~~ ~~overcome~~ ~~pandemic~~ due to ~~the~~ pandemic, most countries ~~⊗~~ faced numerous problems ~~so~~ as they ~~touristic~~ ~~the~~ ~~income~~ ~~that~~ ~~tourists~~ ~~was~~ ~~had~~ ~~been~~ ~~gained~~ they stopped getting the income from tourism, ~~that~~ ~~time~~ was abhorrent for ~~a~~ majority ~~number~~ of countries around the world.

A perfect solution to the problem of global warming might be to decrease the ~~number~~ amount of toxic gases that are produced by cars and factories.

The number of them is much larger than the number of airplanes ^{es in the world}, that is why this strategy would be ~~signifi~~ much more efficient. In addition, people should ~~be~~ ~~more~~ pay more attention to summer fires that happen every year in the most dry territories. ~~We & I believe that if we fight this problem and make the These fires continuously combat this problem~~

release a great amount of CO2 and other gases that cause global warming, ~~combating this chall~~ consequently it is vital ^{for us} to combat this natural problem.

To sum up, I believe that the humanity is able to solve the problem of global warming without cutting down the number of airplane flights that for me seem to be extremely important for society. Looking forward to your reply.
