First of all, with Roman's invasion new houses, walls and roads appeared. People started attending theatres and improved their cultural knowledge of Roman Empire. English people spoke Latin as fluently as invaders because it was a standard language during that time. After the ~~the~~ invasion of enemies, it ~~became~~ became common for English people to spend their time in bathes and, consequently, ^{they} relieved their stress and exhaustion. Finally, the vast majority of English population became Christians.

~~Remarkable~~

1. Historic District of Quebec is noticeable because of its religious edifices that are still prominent nowadays. In my opinion, it should be preserved and kept from becoming obsolete ^{in a matter} because of its high spiritual and cultural importance.

2. To my mind, modern Australia cannot be imagined without Sydney Opera House. It is a ~~nat~~ national object of proud, which provides every citizen of that ~~for~~ country with the opportunity of attending magnificent opera concerts.

3. Of course, ^{great conditions in} Yellowstone National Park should ~~be~~ always ^{be preserved} kept ⁱⁿ ~~in~~ ^{which} I firmly believe that species of animals, ~~that~~ inhabit that ~~terra~~ territory, are the most unusual and ~~in order~~ of and ~~the~~ conditions of their life should be appropriate.

4. Westminster Abbey is ~~undoubtedly~~ ^{very} prominent for its long ~~sequence~~ of history. I suppose that the majority of British monarchs highly praised this place for its beauty and ~~in~~ unequal grace. ~~I think~~ they wanted it to be untouched, ~~in future~~. ^{so} In this ^{so} reason, it should ~~not~~ be obsolete or dilapidated.

5. As far as I am concerned, Great Barrier Reef is ~~a won~~ ^{the best} certainly ~~impeccable~~ place for ~~explora~~ ^{There a} explorations ~~connected with sea~~ ^{of the best marine} organisms. A person can reach an advanced level of knowledge ~~about~~ ^{it} sea life. Consequently, ~~this place~~ ^{educational} should be preserved ~~because of~~ ^{for} ~~scientific~~ ^{educational} purposes. (9)

Nowadays, various museums have the most ~~impo~~ ^{role} important and significant ⁱⁿ development of adolescents' expertise regarding the international cultures. Without a shadow of a doubt, everyone, including adult people, ~~shou~~ ^{stoms} should pay attention to traditions and cultures apart from their own. This is clearly illustrated by the fact that an individual cannot establish intimate relationships with foreigners ~~wit~~ and not to know cultural peculiarities.

First of all, the type of event that I was provided ^{not} with, is certainly worth conducting. It is generally ^{not} ~~satisfactory~~ ^{appropriate} for my group age because ^{it requires} ~~includes~~ being accompanied by adult people, which is by and large, not necessary for adolescents ~~over~~ who are over ~~six~~ ^{sixteen}. Moreover, organisational aspects entail ^{interesting} storytelling and dancing that are not really ^{interesting} or ~~captivating~~ beneficial for an older group of teenagers.

^{Additionally} Finally, I am going to present my own idea of museum excursion, which I hope, will ~~wil~~ satisfy ^{the} needs of ^{the} young adolescents. The aim of my proposal is to provide ^{the particular} an efficient option that will suit both young and adult people. The topic of my excursion is dedicated to ~~the~~ ^a geography. Participants will take ^a part in ^{the} event called "Unbelievable but true" in Somerset Museum of cultures. They will get to know more about intricate facts of English and world-wide geography which is closely entangled with multiple traditions. Teenagers from age of ~~ten~~ ^{or} ~~to~~ ^{the} seventeen will

scrutinize different maps and solve ~~different~~ tasks, which contain conundrums. It will require pencils and ~~other materials~~ writing materials such as pens and brushes. Adolescents will have to follow every ~~step of teacher~~ ^{teacher's step} in order not to get lost in. Thus, they will not be perplexed by tasks.

To conclude, organisational details include large labels for writing and ~~sp~~ posters with countries. I am convinced that everyone ~~&~~ will enjoy participating in "Unbelievable but true."

It uncovers ^{the main} mysteries of geography and allows to gain ~~a high~~ ^{the high} level of knowledge.
