~~It is obvious that~~ The Romans are the symbol of social and cultural rise of ^{England} Great Britain. For example, they built the first big towns in England such as London, Colchester and others. Besides, they brought ^{art} culture there: for example, theatres. They also were the first to ~~but~~ build straight roads and fine houses there. What's more, they ~~brought~~ ^{started} education there and ^{introduced} a new language - Latin. They also brought christianity to England. Indeed, their impact was unbelievable.

"The Open Window" is a short story by Saki (the pen name of H.H. Munro) that revolves 2. around a young man 14. named Framton Nuttel who visits the countryside for rest and recovery. He 12. was intro-duced to Mrs. Sappleton by her niece, Vera. Vera spins a

tale about the tragic loss of Mrs. Sappleton's husband and two 1. younger brothers who went 13. hunting and never returned, supposedly swallowed by a 5. dangerous bog. She claims Mrs. Sappleton keeps the French windows open every evening 12. in anticipation of their return, 9. despite their disappearance three years prior. When Mrs. Sappleton arrives, she mentions the imminent return of her husband and brothers. Framton becomes 6. increasingly unnerved by Vera's story, and his anxiety peaks when he sees figures 11. approaching the house through the open window. 8. Panicking, he flees the house, only 7. to encounter Mrs. Sappleton's husband and brothers, who are very much alive and unharmed. Confused and embarrassed, Framton 10. hastily leaves, while Vera coolly reveals to her aunt and the other guests that she fabricated the entire tale to entertain herself and her visitors. The story ends with Framton's 3. embarrassment and Vera's mischievous 4. satisfaction.

It is obvious that nowadays people visit museums and galleries less often than some decades ago. The main reason is ~~the~~ impact of internet. We ~~only sit in~~ share most of our spare time with it, not willing to come outdoors. But yes, there are lots of VR museums and online galleries, however, the main thing is to touch history with your own hands, ~~see it to~~ see it with your own eyes - this is the only way to feel and understand it. And you will ask me: "What's the use of it?" The answer is as follows: we should not only know museums of our own country but also be aware of our world cultural heritage, because it is the encyclopaedia of the ~~best~~ best pieces of world art and culture, the true beauty of our imperfect world.
 There are ~~best~~ lots of different types of excursions nowadays, so ~~it is~~ choosing the best is not a question to be easily answered. One of newest kinds

is 'Spending - a - night'. It is perfect for every group of people, especially for teenagers (I'm a teenager, so I think I know what is in trend). ~~This type is the most balanced~~ The main reason is that this type is the most balanced: it is a little bit scary and ~~frig~~ challenging on one hand and interesting and informative on the other. We feel like lost adventure - finders: scary night in an empty museum and to a there is a lot of mysterious and unknown around us, and we solve these mysteries during the excursion. Besides, the organizational aspects are ~~comfortable for~~ appropriate for sure because there are lots of activities, so it is full of interesting quests, and between them there are snack breaks: nobody ~~forbid~~ energy regeneration! And it is important for every child to be controlled by a parent for not to be lost.

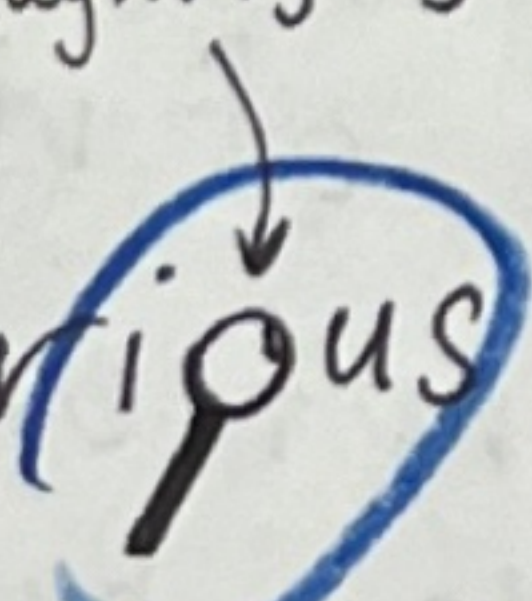

I know that there is a wide range of these programs but I would like to ~~advise~~ offer a new one:
