Statue of Liberty: Made in Paris by two I am puzzled
 City of Bath: Founded by the Romans as

Tower of London: This massive ~~construction~~ structure is a
 Yellowstone National Park
 Stonehenge, Avebury and Associated Sites: The three main prehistoric
 sites

Grand Canyon National Park: Cut out by the Colorado
 Stonehenge, Avebury ^{and} Associated Sites: These sites in Wiltshire, are
 I did it! ~~Stonehenge Avebury and Associated Sites~~

~~City of Bath~~: I think City of Bath should be saved, as it is a
 rare natural wonder ~~and~~ ~~generations~~ generations should
 born? Tower of London should be ~~kept~~ saved, ~~for~~ ~~it~~ for it's
 multiple layers of history.

Черновик 3

I think Statue of Liberty should be saved, ~~for the~~ ~~reason~~ as it attracts tourists and makes americans respect their independence.

Grand Canyon should be saved as it has traces of prehistoric humans, ~~and~~ their adaptation, ^{as well} ~~as well~~ being of natural wonder.

Yellowstone National Park is the largest ^{and most important} concentration of prehistoric megalithic art, that's why it should be saved.

Stone henge, Avebury and associated sites should be saved, ^{they are} ~~as they are~~ ~~the~~ most famous groups of megaliths ~~in the world~~, whose astronomical significance is still being explored.

the hardest part here =<

Museums are very important in our world. They help us learn about not only today's culture but also the past's. Traditions of centuries can only be saved thanks to the museums. Each country has its culture, and knowing only your culture is a great disadvantage, as each culture has something to present to you. This ~~exhibition~~ exhibition ~~will~~ ~~will~~ boost ~~children~~ knowledge of your children about Japan.

The theme is very interesting, as Japan's culture is very beautiful and unique. The title ~~doesn't~~ suits the exhibition and is understandable ~~for~~ to any child, as it is simple. The set of activities is great and entertaining, but parents might get bored, as ~~the~~ activities are for children; organizational aspects are ^{comfortable} great, everything is worth ~~the~~ the price.

Learning culture of other countries is important as it boosts your knowledge of lot. ~~It is a great~~ I would recommend this exhibition to parents of 8-10 year old children, as it will be a great present to ~~a~~ kids. The drawing, the cooking is ~~not~~ ~~not~~ ^{a lot of fun!}

Museums are very important nowadays. They help us learn about not only today's culture, but also the past's. Traditions of ~~past~~ centuries can only be saved thanks to museums. Every country has its culture, traditions; not knowing only your country's is a sign of lacking knowledge. This exhibition will help you boost your and your children's knowledge about Japan.

The theme is very interesting as Japan's culture is very unique and beautiful. The title is suitable suits the exhibition and is very understandable due to its simplicity. The set of activities is large and entertaining: cooking, drawing, dancing, listening to Japanese fairytales and more! But parents might get bored as those

Меморенд 3

activities are dedicated to children. But the organization aspect is great. Everything is done properly, what makes it comfortable and worth the price

Learning the culture of other countries is useful, and good for your knowledge to be boosted. I would recommend it to parents of children under 12, as all the activities, all the process is a lot of fun. The drawing, the cooking everything will be entertaining, making this exhibition a great present to kids!
