but also in terms of international culture. It is significant for all of the people to know their own roots and have a sense of how things that we use now had come to ~~the~~ their form.

Personally, I think that the given event would be really entertaining and beneficial for people my age who are fond of learning history and culture. ~~(The event)~~ Since it is not a common way to absorb new information and can encourage students to study ~~in~~ ⁱⁿ a form of recreation. However, some ~~(organizational moments should be fixed)~~ activities are better for small children, not for teenagers. For example, dancing and drawing - not all of the participants would like it. Considering organizational aspects, I suggest giving people more sleep time, since seven hours is not enough for underage people.

Also, I would like to propose my own project similar to the given one. Its theme is Renaissance and a rise of culture. The name of the project is "A new lease of life after medieval age." I propose it taking place in the Jewish Museum in Moscow, Russia, an awesome museum to visit. The age category is not limited, despite the fact that this theme might not be interesting to ~~the~~ small children. During this project we will visit a number of exhibitions which are connected with Renaissance, and the participants will be accompanied by our professional ~~guide~~ guide. As a bonus, we will organize a cinema evening and watch some documentaries about post-medieval period and the return of cultural development. As for the organization moments, people under eighteen must be accompanied by adults and the participation will cost ~~(1300 rubles)~~ 1300 rubles per person. The start of the project will be on Monday 12 February 13:00 and the end will be the same day, 20:00.
