Today, museums are the most important part of the world's culture, because people have to know their history, history of their country. However, a clever person should know the world's culture, too. So, he could understand why people are different.

The subject of this event is interesting, because today a lot of teenagers love ~~the~~ Asian culture.

The head of the ~~text~~ ^{activity} is looks very exciting, too, because everyone wants to spend a night in the museum! In my opinion, this ~~activity~~ ^{event} is perfect for teenagers, aged 11-14. Children can feel themselves as kings and queens, sleeping in the Museum's galleries. The organization of this event is great. Teenagers can play and learn new information at ~~one time~~ once.

The ~~worth~~ most important educational part of this event is learning history of Japan. I would be happy to go there with my friends. We would learn about new collections, because ~~we~~ ^{it} it would be the most exciting activity for us. I hope, that everyone will ~~go there one day~~ take part in this event one day.
