Well, my favourite dish is sandwich with sausage. To ~~to~~ make it, you need just to take two slices of bread ~~and~~ ^{and} put one sausage between them and that's all.

№5.

I think that a home is a place, where I live with my family. It is the safest place, ~~I can come there any time I want~~ and where I always feel comfortable. ~~Home~~ ^{It} is a place, where me and my family can meet together, so for me home is a very important place, that ~~contains~~ is made from our love. But if home is ~~the~~ our place, where we live together, my room is the place, where I am alone. In my room I can just relax lonely and ~~no one~~ could come in without asking me. My room is a comfortable place, where I am alone. That's very important, because each person need some time for himself and ^{in my room I can spend this time, where I can be myself} well, I am dreaming about an ideal room, because right now I live with my sister in one room and that is very uncomfortable! I ~~can~~ not just be alone for even one second, because she is everywhere and she annoys ^{me} ~~me~~ so much. Although my sister is so ~~active~~ ^{active}, I still love her. But that fact, that we live in one room makes me dream about an ideal own room.

My ideal own room should be mine, without my sister. Also it should be very big, because I've a lot of different things and clothes, that I need to contain in it. The shape of this room should be square, because

in this shape all the furniture could be placed in. As for the colours, I would like to have more light colours, such as white or light blue. These colours make me ^{feel} happy, ^{better} and ~~feel~~ more comfortable, ~~I~~ and exactly these feelings I ~~want~~ ^{want} to feel in my room. As for material for the walls and floor, I would like to use wood, because each time, when I see some rooms, that ~~was are made~~ were made by the wood, I start to remember the time, when I was a child. ~~to~~ That is because all of my childhood I lived in a wooden house, that I really loved. That is the reason, why I would like to use wood.

Well, as for the furniture, I would like to place a basketball hoop in my room, because basketball is my hobby and I play it every day, so with this hoop I could practise ~~more~~ even more. Also I would like to ~~have~~ ^{have} a big sofa in my room, because after a long hard day the only thing that I want to do is to relax, so with sofa it would be even more comfortable. I think I wouldn't place ~~so~~ a football soccer table in my room, because I don't like football, ~~Basket~~ basketball I like much more.

Also I wouldn't ~~place~~ ^{choose} a grand piano in my room, because it's ~~it~~ very big and I don't like playing it, I prefer guitar. Well, I wouldn't choose a bunk bed again, ~~because~~ like it is now in my room, I would choose a canopy bed, because it is bigger and more beautiful. I ~~would~~ wouldn't choose a small chair again, because it is very uncomfortable. My back hurts very much. Now I would choose a big comfortable chair, so it would be much more comfortable to sit on it. ~~A~~ I think a basketball hoop I would place on the door, ~~big canopy~~ my big canopy bed on the right, sofa and a table for studying on the left. That would be the most comfortable room for me.

Well, I think that the most important thing to make the room comfortable is the person, that lives in it. For example, in the book "Harry Potter" ~~Joahn Rowling, Ron~~ "Harry Potter", that was written by Joahn Rowling, Ron lived in a small house, ~~but~~ ^{and} with a big family. There ~~was~~ ^{were} a lot of furniture, ~~things~~ ^{and} clothes, but there wasn't a lot of space. Although Ron lived in a messy room with a lot of things in it, the room was comfortable.

Чистовик

because there lived Ron, ^{that} ~~who~~ was
very kind and good person. And
~~even if the room is even in the~~ cleanest
most beautiful and ~~etc~~ in the room
room ~~it's~~ ^{it is} not comfortable, if there lives
a bad person, that is very angry. Also
each person likes different things, so
if, for example, I like big windows
and I feel comfortable, another person
could be scared and doesn't like
it at all. But if in the room lives
a good person, ~~both~~ both of us
will like this room. So that's why
I think, that the person, who lives
in the room, makes the comfort ~~in it~~
in it.
