My favourite dish is ~~sandwich~~ sandwich. You just need to get two slices of bread and put everything you want between them.

~~It's~~ Having your own room means that you have privacy. It's a dream of each person to have a place where you can be alone. And I'm not the odd one out. And of course I would like my room to be perfect, so I want to describe it.

I would like my room to be huge and have a shape of cube, because I like walking around. The colour of my room would be white, because it makes me feel myself confident and calm. I would like the floor in my room to be wooden. And as for ~~the~~ walls I would choose the first wallpaper sample, because it's ~~very~~ beautiful.

Of course, I would like to have a table in the edge of my room, because I need a place to study. Also having a grand piano in the centre of the room is my dream, because I like playing music very much and can't imagine my life without it. I would like to have a canopy bed in front of the window, because I find it beautiful and very comfortable. Also I would like to have a huge wardrobe near my bed, because I have a lot of clothes. I don't need a basketball hoop in my room, because I don't like basketball. Also I find having a football soccer table a bit weird, because it's too huge and I don't like it. I don't need ~~a~~ a bunk bed in my room, because I already have another bed. I wouldn't like to have flowers in my room, because I'm too lazy to water them. I hate carpets so I wouldn't like to have them in my room too. I think that it's better to have all the books in the living room, so I would replace the cupboard which is full of them with a huge television. I would put it in front of the bed. I find a small table with different things a bit useless, so I would replace it with a big collection of electric guitars. I would put it in the edge of the room.

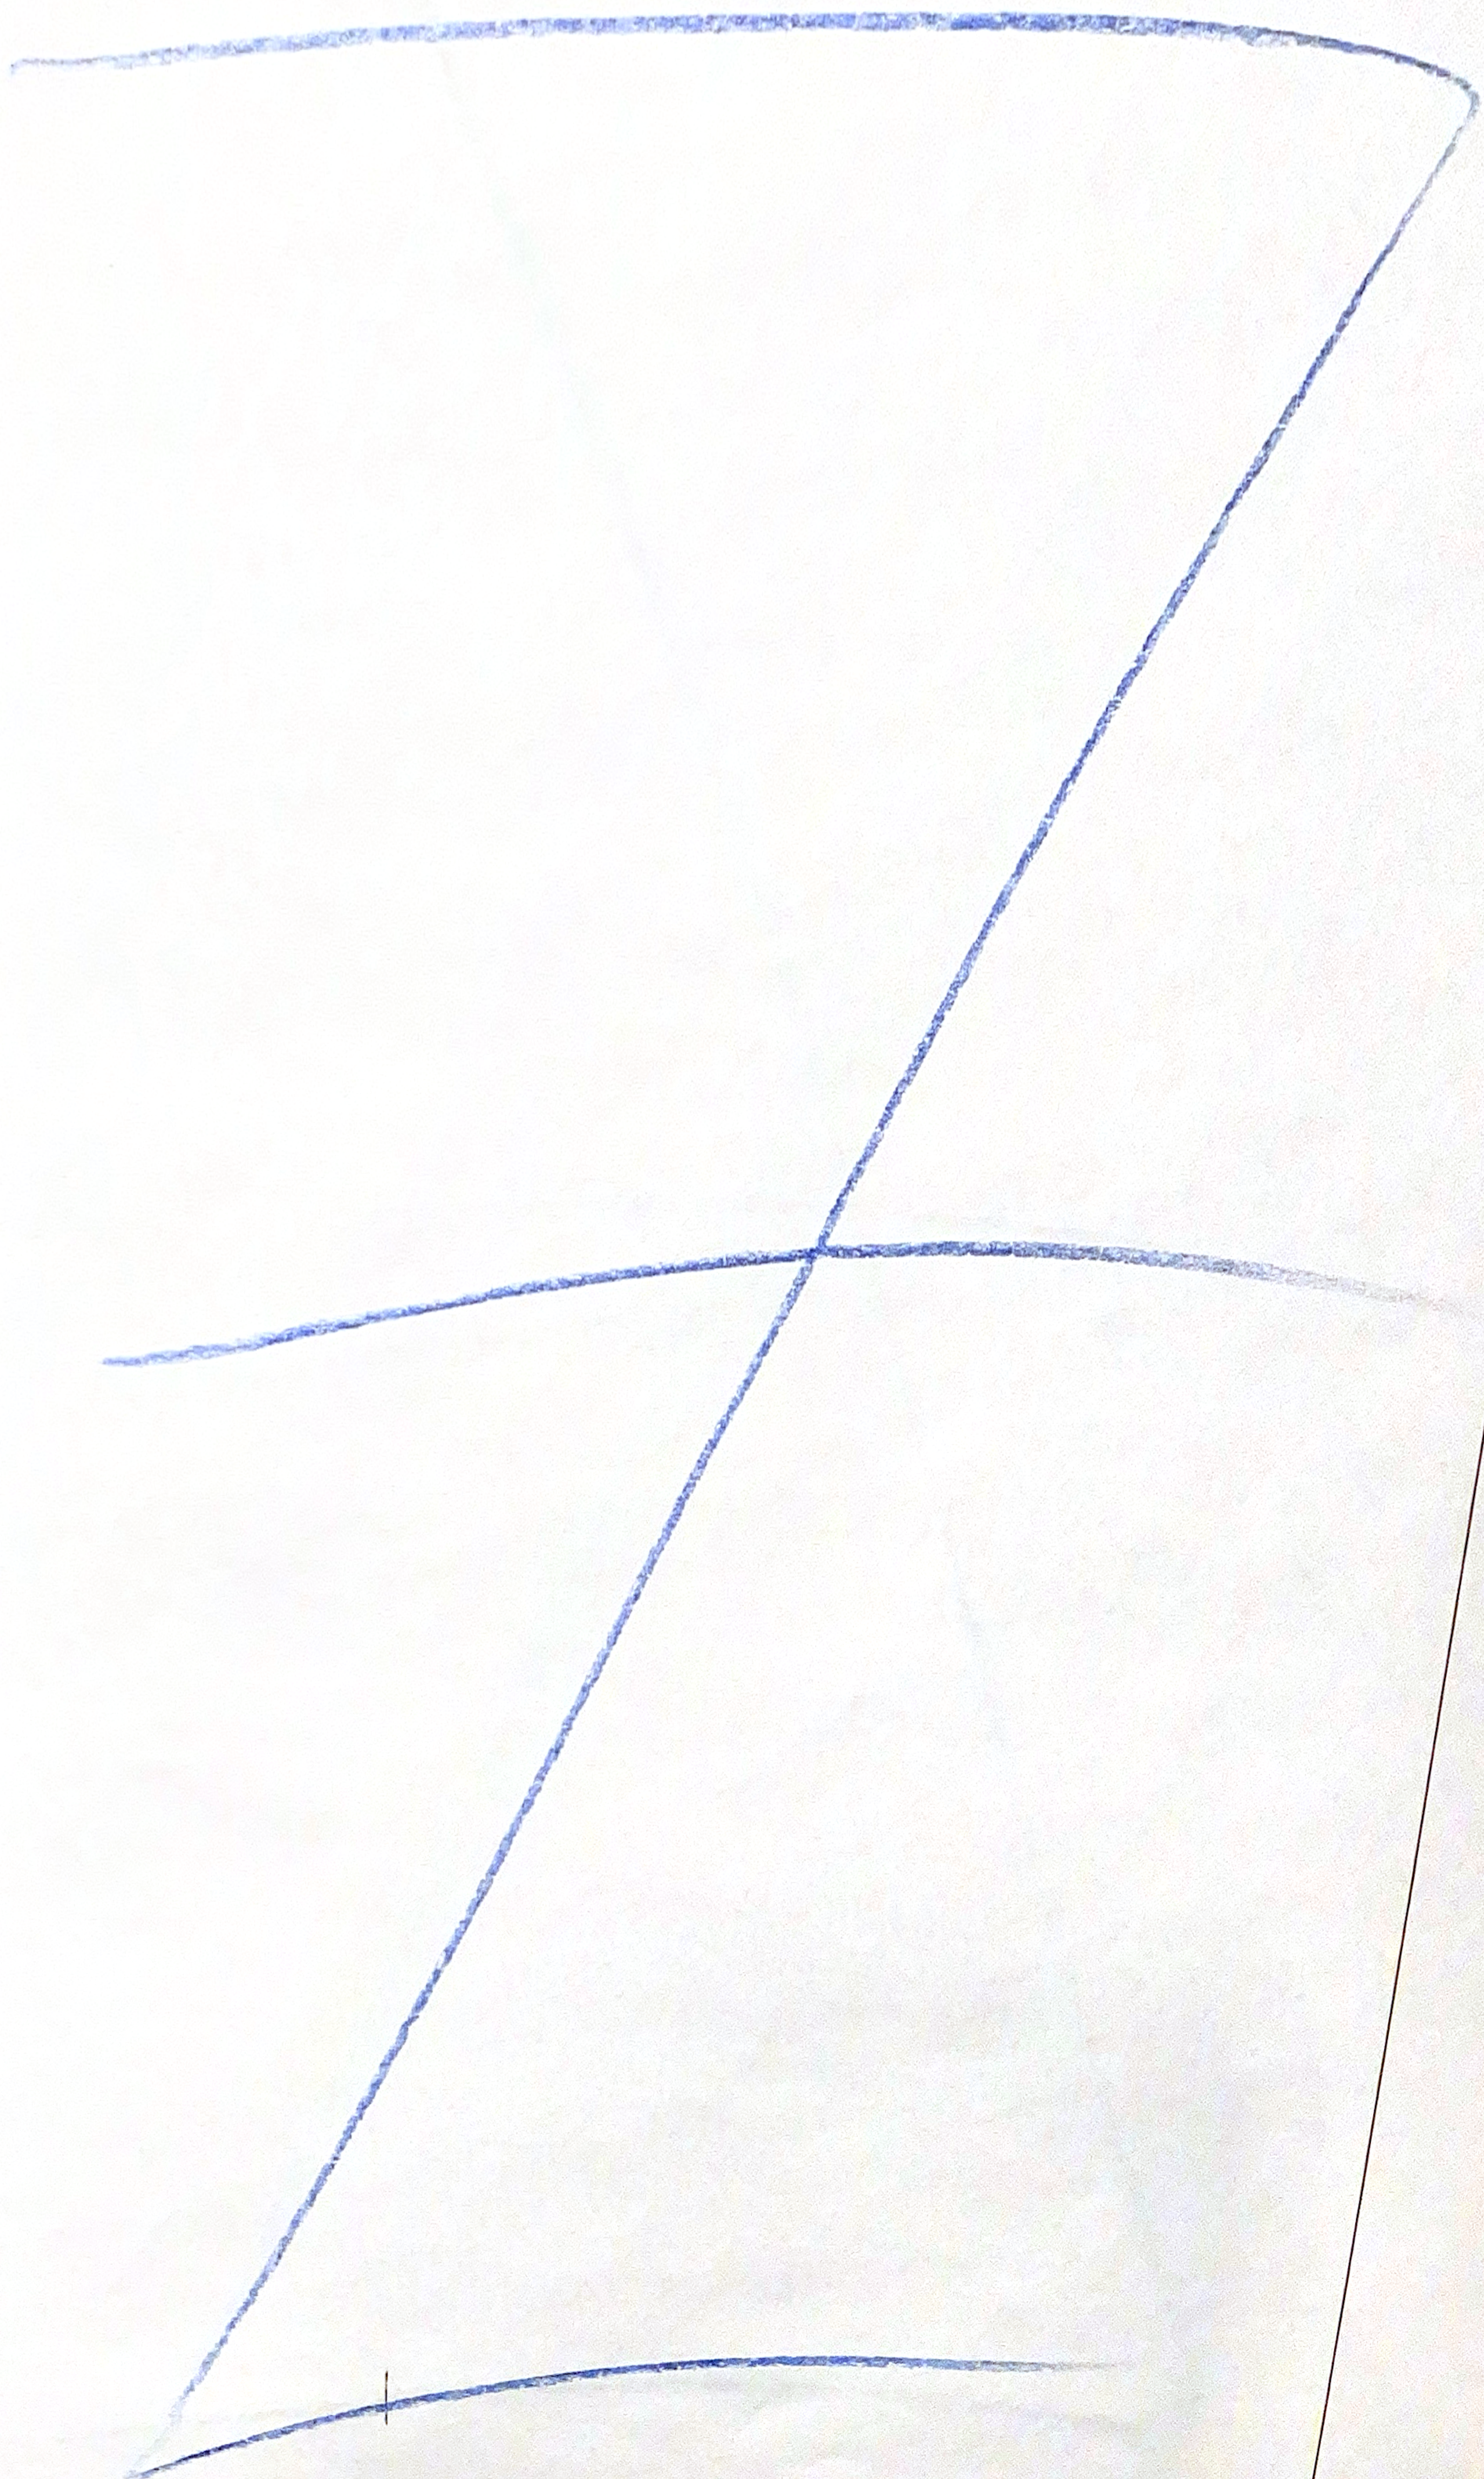

Your room is a place where you can feel yourself safe and ~~very comfortable~~ comfortable and if you want to make it so, you need to put things that make you happy inside of it.
