A.

1) EVOLUTION

2) THOUSANDS

3) ENLIGHTNING

4) NOVEL

5) EXQUISITELY

B.

- The common idea these two texts share is that in the past people had different understanding of world and the theory of evolution was questioned a lot. The difference between these two texts lies in misconceptions based on the theory. In the extract we hear about scientists who thought that there is a lost world and dinosaurs are still alive, while ~~the~~ the article ~~talks~~ ^{tells} about ~~the~~ ~~prediction~~ prediction that evolutionary biology isn't a science.
- To conclude, both texts show that it is important to check the facts and make observations before believing what others say. This is crucial to remember when it comes to sciences, the humanities or education in general, as we can develop critical thinking.

Book 2. Reading

C Edit.

(3) I hope I have luck. I got my rabbit's foot and my lucky penny and my horse shoe. Dr. Strauss said: "Don't be so superstitious, Charlie. This is science." I don't know what science is but they all keep saying it, so maybe it's something that helps you to have good luck. Anyway I'm keeping my rabbit's foot in one hand and my lucky penny in the other hand with the hole in it. The penny, I mean.

I mean.

(2) - But don't have sixty pounds.

- One would think you were my father. He gave it to me, not to you.

- Here! You give me that handkerchief. He gave it to me, not to you.

A, The following two extracts from fiction show that it is important to use proper grammar so as not to lead to misunderstanding.

1. It is wrong to use

proper spelling is also important

to understand the right meanings.

2. We can learn many things about the person by the grammar they use.

For example, it can reveal whether they studied grammar or writing at school or not. Judges may

decide whether they went to school at all due to the lack of money.

3. It is important to show their characters' way of living, by using wrong grammar they can create an image of a poor and uncultured person.

The person delivering this speech was Sir Winston Churchill. This speech is famous and known all over the world for the phrase "we shall not flag or fail". Churchill delivered this speech during the Battle of France which was on 4 June 1940. It couldn't possibly be Barack Obama as he was ^{an American} born in 1961. Churchill was ~~the British Prime Minister~~ ^{the British Prime Minister} and we understand it from the speech: "This is the resolve of His Majesty's Government..." <---> "that is the will of Parliament".

A Graduation speech

Good afternoon ^{dear} fellow students, teachers, ^{dear} parents and friends, most importantly - graduates of class 2025! Standing ~~here~~ ^{here}, I can feel your excitement. ~~Every~~ Each of you has made a long journey to this special day. We've been together through a lot, sharing all kinds of memories. To be honest, I'm feeling quite wistful when thinking about those times. ~~But now we're gathered here to celebrate this moment and I have only one important thing for you to remember - dream big and aim high!~~

You're probably thinking, why am I saying this, like "man, isn't it obvious?" I used to think like that too, until I understood what those words actually mean. You know, when they say "nothing is impossible", that is true. Overcoming all ~~those~~ challenges and downfalls at school only ^{only} made us stronger. Now we have experience and knowledge, ~~and~~ we've learned our

lessons and are ready for ~~anything~~
 every path life's taking us on.
 Think about ~~all those inventors and scientists~~
~~we've studied~~ ^{we've studied} all those inventors and scientists
 once they were just like us. Some of them
 stood here on their graduation day,
 scared and unsure ~~of the future~~. But
 I bet they were ^{all} dreaming big. Even
 if the future is unknown it is all
 in our hands. Don't hesitate to try
 something new. ~~There's nothing we~~
~~couldn't do~~ ^{couldn't do} and I'm on the level
 this time.

But ^{keep in mind that} only dreaming is not enough.
 We must also aim high and take
 action. Success is not all about luck;
 it is about persistence and courage.
 There will be obstacles, there
 will be moments of doubt, but
 remember: the sky is not the
 limit - your mindset is!

As we leave this chapter behind,
 and step into the future, let's not
 be afraid of chasing the dreams
 that set our souls on fire.
 Let's push boundaries, embrace
 challenges and create ~~something~~ ^{something}

that'll inspire the next generations.

~~Class of 2025, the world is waiting for you. Dream Big! If it wasn't for you, I wouldn't be here. And I will do my best to make you proud. And one more thing to all the students: keep reaching for the stars!~~

In conclusion, I want to thank my family, dear teachers and friends. If it wasn't for you, I wouldn't be here. And I will do my best to make you proud. And one more thing to all the students: keep reaching for the stars!

Class of 2025, the world is waiting Dream Big. Aim high, go and make it happen.

Congratulations!
