My favourite dish is hamburger. You need to cook meat in a flat round shape and eat it between two round pieces of bread.

House and my room for me are places where I live, so I won't allow any bad people to be there. So, I dream about an ideal room which would have all things I need.

My ideal room should be square-shaped and big, so I would have much space to **walk** and live there. I prefer light but not too bright colours for my eyes. It is because light colours make me to be happy and cheerful all the day and my smile to shine. I would have wooden floor and light wallpaper, for example number one of wallpaper samples.

I think there in my ideal room should be a big table with a good computer where I would work, a cupboard where I would keep my things, such as notebooks, shelves where I would keep my books and also a big bed where I would sleep comfortably. I don't need a football soccer table or a grand piano, because I don't like play soccer on the table and I don't play the piano. I would change, for example, basketball hoop to the parts or a big wardrobe to a big library because I too don't need them. And I would put the table to the corner of my ideal room, the cupboard near the table and the shelves above the table. Also I would put the bed to the opposite corner of the room.

I think the most important in making comfort in
